Federal Motor Carrier Safety Administration

Roadside Inspection

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport property or passengers in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs.) Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

Summary of Roadside Inspections in Missouri

Roadside Inspection Activity (Missouri)	FY 2009		
	Fed	State	Total
Number of Inspections	315	85,006	85,321
I. Full	266	33,670	33,936
II. Walk-Around	14	30,268	30,282
III. Driver Only	13	19,531	19,544
IV. Special Study	0	29	29
V. Terminal	22	1,505	1,527
VI. Radioactive Materials	0	3	3
